We Miss You All!

Hello participants!! The new year has come and we are still temporarily closed to the public which means we are still missing all of you in the building! You may have noticed the changes happening to the exterior of the building but some of you have not yet been able to see some of the changes we've made in the exterior as well. The exterior and interior paint has finished and we continue to spruce the place up in your absence so that you all will enjoy the new and improved center when you return! We have re-located the pool room and repaired the pool table for you all to better enjoy!

Some of the building improvements made to the Senior Center.
