The HPCC only accepts Household Hazardous Waste (HHW) from Tempe and Guadalupe residents. No commercial or industrial hazardous waste is accepted. Proof of residency is required (Water Bill or Driver's License).

Items in trash bags will not be accepted- Because of recent incidents involving HPCC Staff and public safety, items that are delivered in trash bags (thrown into) may not be accepted.

Items that are co-mingled in a trash bag by a leak or spill can begin to react (Develop heat or Off Gas) and place staff as well as the resident in danger of injury. Typically, residents place the items in the bag neatly, but through loading, transport and unloading the items get tossed about, damaged and/or spilled.

If materials have spilled inside the bag and cannot be identified, a Hazardous Materials Response and clean-up may be required. Household Hazardous Waste must never be just thrown into a trash bag for disposal. Contact HPCC staff with questions.

Commercial or industrial waste- Absolutely no commercial or industrial waste will be accepted. Only HHW from residents of Tempe or Guadalupe will be accepted and proof of residency is required.

Dangerous Items Not Accepted- Please contact the HPCC at 480-858-2223 to determine proper disposal options for the following dangerous items. If the items are in poor condition, old or could present a hazard to public safety, telephone Tempe Fire Department (911).

- Ammunition
- Blasting Caps
- Radioactive Material
- Medical Waste
- Gas Cylinders other than Propane

Other Items Not Accepted

- Commercially Generated Waste
- Styrofoam
- Packaging Materials
- Construction Debris
- Insulation
- Items in black trash bags
